

.js

```
graph LR; A[.js] --> B[Node.js]; C[.js] --> D[Chrome];
```

The diagram consists of two horizontal rows. The top row features a light blue rectangular box on the left containing the text '.js'. A gray arrow points from the right side of this box to a large, bright green rectangular box on the right containing the text 'Node.js'. The bottom row features a similar light blue rectangular box on the left containing the text '.js'. A gray arrow points from the right side of this box to a large, bright green rectangular box on the right containing the text 'Chrome'. All boxes have a thin black border.
